V. Write the meanings of these words.**5**

Words	Meaning
1. bookworm	
2. suppose	
3. talented	
4. perfect	
5. active	

Comprehension =10**1. Read the following poem and answer the questions.****5**

A mine is a hole in the earth; people dig mines to look for rocks such as coal. Some mines have tunnels that go deep under the ground. A miner is a person who works in mine. A mine is a dangerous place. Miners wear special clothing to keep safe. There are important safety rules in mines such as miners must be able to breathe fresh air. And strong beams hold up the mine roof so that it will not fall on the miners.

These days coal mining is done by machines. After the coal is cut, it is taken out of the mine. Not all coal miners work under the ground. The miners dig for coal that is close to the ground. First the soil is removed from the ground. Then, the big machines scoop the coal out of the ground. At the power station, the crush coal is burnt. The burning coal heats water and makes it boil. Boiling water make steam. The steam turns a generator. This makes electricity.

- (i) What is mine and where do the miners work?
- (ii) What are the safety rules of mines?
- (iii) What happens after the coal is cut?
- (iv) How does the electricity make the coal?
- (v) What is the modern tool of mining?
